One of Kansas City's hidden gems, Union Cemetery is the resting place of many of Kansas City's founders. It is a place filled with rich history and stories of politicians, artists, entrepreneurs, war heroes, and every day people making a difference within a changing society. The Historical Society is responsible for sharing these stories and caring for the memorials and grounds that celebrate some of Kansas City's treasured lives.

Union Cemetery is also a vital resource for the surrounding neighborhoods. The 27 acres are a Kansas City park meant for the enjoyment and recreation of all Kansas City residents as a refuge of natural beauty in the center of the city. By joining UCHS, you are supporting the preservation of Kansas City's history and the community at large. Your membership donation will support various improvement projects as well as the day to day operation of the Society.

All contributions are tax deductible.

The Union Cemetery Historical Society's purpose is to preserve, protect and promote Kansas City's historical Union Cemetery. In this effort the Society gives tours, provides learning experiences, assists with care and beautification, aids genealogical research, promotes the cemetery to the public and more.

The Union Cemetery Historical Society needs your help to preserve and protect Kansas City's oldest public cemetery.
